Product Designer experienced in designing complex digital B2B products, currently the sole designer in an early-stage startup. I own the end-to-end design process, from discovery and information architecture to UI and implementation, working closely with founders, Product and Engineering to turn complex business needs into intuitive digital experiences. Experienced in Agile environments, stakeholder collaboration and building scalable Design Systems from scratch.

SKILLS

Discovery · User Research · Information Architecture · User Flows · Wireframing · Prototyping · UI Design · Design Systems · User testing · Co-design · Agile | Figma · Framer · Webflow · Claude AI | Italian (native) · French (fluent) · English (fluent)

PROFESSIONAL EXPERIENCE

Product Designer (UX/UI) - SaaS B2B

Early Stage Startup - MIRA-AI, Sport Tech | Jan 2025 - Present

- Own the end-to-end design of a complex B2B SaaS product across web and iOS, from discovery and information architecture to UI and implementation.
- Conduct user research and collaborate directly with founders, Product and Engineering to translate complex business and user needs into clear workflows, scalable structures and intuitive interfaces.
- Built the product's information architecture from scratch, structuring interconnected modules as the platform evolves with new features and client needs.
- Co-created the Design System from scratch and continuously evolve reusable patterns and product foundations as the platform scales.
- Participate in client presentations with international professional football clubs, bringing user feedback and business needs into product and design decisions.
- Use AI tools for research support, concept exploration and rapid interaction prototyping, accelerating the design process and communication with Engineering.

Product Designer (UX/UI) - B2B & B2C

Intellera Consulting (PwC Public Sector), Milan, Italy | Sep 2022 - Oct 2023

- Designed digital services for public-sector organisations, translating complex institutional requirements into accessible and user-centred experiences.
- Conducted discovery through user interviews, workshops and stakeholder sessions to identify needs and align product objectives.
- Designed user journeys, information architecture, wireframes and interactive prototypes, collaborating with multidisciplinary teams through delivery.

International experience - Australia

Visual Merchandiser, Zara, Melbourne | Oct 2023 - Oct 2024

- International experience in a fast-paced, multicultural and customer-facing environment, strengthening communication, adaptability and collaboration skills.

EDUCATION

Master in User Experience Design

Talent Garden Innovation School, Milan, Italy | 2022

User Research · Information Architecture · Interaction Design · UX/UI Design · User Flows · Wireframing · Prototyping · Usability Testing · Service Design

Hands-on projects developed in collaboration with companies and startups, applying UX methodologies to real-world business challenges.

Bachelor's degree in Communication, Media & Advertising

IULM University, Milan, Italy | 2018 - 2021
